BLACKLISTED WORDS

To the right are recommended blacklisted words. Please use "clean" language as you play with your audiences, treat your audience with respect, and don't be rude or malicious. For connivance (Copy Paste)

[Nightbot Words](#)

Update Filter: ✕

Blacklist

This is the list of filtered words and phrases you wish to block, entered one entry per line. You can use an asterisk (*) as a wildcard character to dynamically filter chat. For example, `test*` blocks test, testing, testerino, etc.

Timeout Length seconds

This is maximum length of time Nightbot will timeout users for when being punished for this spam filter. Nightbot always issues a 5 second timeout for first offenses, and repeat offenses yield the length you select here.

Exempt Userlevel

This is minimum required userlevel to be exempt from this filter. Userlevels are listed from highest to lowest.

Silent

For busier channels with more timeouts, Nightbot can quickly flood the channel with too many timeout explanation messages. Enable this setting and Nightbot will no longer give messages to punished users.
