**Shawna Hudson, Ph.D.**

Professor and Research Division Chief,  
Department of Family Medicine and Community Health  
Rutgers Robert Wood Johnson Medical School  
Member, Stand Up To Cancer Health Equity Committee  
New Brunswick, NJ

**Shawna Hudson, Ph.D.** is Vice Chancellor for Dissemination and Implementation Science for Rutgers Health, and Senior Associate Dean for Population Health Research at Rutgers Robert Wood Johnson Medical School (RWJMS). She serves as Director for the Community Engagement Core of the NJ Alliance for Clinical and Translational Science (NJ ACTS) which is a Clinical and Translational Science Award (CTSA) consortium. She leads the RWJMS Center Advancing Research and Evaluation for Patient-Centered Care (CARE-PC). Dr. Hudson's faculty appointment is in the Department of Family Medicine and Community Health where she is a Professor, Vice Chair of Research and the Henry Rutgers Chair of Family Medicine and Community Health.

A medical sociologist, Dr. Hudson is a community-engaged, primary care researcher working with vulnerable populations at the intersections of community health, primary care and specialty care. She has published extensively on the role of primary care in long-term follow-up care for cancer survivors. Input from patients, clinicians and the community is at the heart of her work. She is a mixed methods researcher and serves as Principal Investigator and co-Investigator on multiple NIH funded studies. Dr. Hudson's research has been featured in a number of journals including JAMA Open Network, JAMA General Internal Medicine, Annals of Family Medicine and Lancet Oncology. She has led and participated in a number of large research studies funded by the National Cancer Institute, the National Institute on Minority Health and Health Disparities, the Centers for Medicare and Medicaid Services and the Robert Wood Johnson Foundation. She serves on the editorial board of the Journal of Cancer Survivorship. She currently reviews grants for the National Center for Advancing Translational Sciences and the Patient-Centered Outcomes Research Institute (PCORI) and previously served as a standing member of the NIH Dissemination and Implementation Research in Health (DIRH) Study Section. Dr. Hudson is a fellow of the Society of Behavioral Medicine and a gubernatorial appointed member of the New Jersey Commission on Cancer Research. Most recently, she served as a member of the National Academies of Sciences, Engineering, and Medicine's (NASSEM) Committee on Implementing High-Quality Primary Care and Committee on Transforming Health Care to Create Whole Health: Strategies to Assess, Scale, and Spread the Whole Person Approach to Health.
