William G. Nelson, M.D., Ph.D., D.Sc., is the Marion I. Knott Professor and Director of the Sidney Kimmel Comprehensive Cancer Center at the Johns Hopkins School of Medicine in Baltimore, MD, holding Professorships in seven academic Departments at Johns Hopkins University. His studies of prostate cancer have yielded new insights into the causes of the disease and new products for its detection.

In addition to his recognized leadership in translational cancer research, Dr. Nelson has become an accomplished lay communicator for cancer medicine and cancer research, serving as Executive Editor for *Cancer Today*, where he delivers a quarterly column, providing testimony to federal and state legislative bodies, or hosting the *Cancer Matters* podcast series.
